DAMIR YAKUPOV
FULL STACK DEVELOPER

Toronto, ON | **Phone:** 647-223-5923 | **Email:** yakupovdamir93@gmail.com
LinkedIn: https://www.linkedin.com/in/damir-yakupov/ | **GitHub:** https://github.com/DamirFM

SUMMARY

Experienced Full Stack Web Developer with 4+ years in designing and developing accessible web applications. Demonstrated success in solving complex problems, maintaining coding standards, working in cross-functional teams, specializing in full-stack development and optimizing processes.

SKILLS

Technical Skills:
<u>FRONT-END</u>: React.js, Redux, JavaScript, TypeScript, Next.js, HTML, CSS, Tailwind, Flutter, Bootstrap, jQuery, Bulma, Chakra UI, Framer Motion, Figma, React Native, Expo, Xcode, iOS Simulator, Angular
<u>BACK-END</u>: Python, Django, Lambda, Node.js, AWS, Express.js, Apolo GraphQL, REST APIs, JWT, XSS, CSRF, Azure Cloud, Azure DevOps, .NET, MySQL, SQL, MongoDB, PostgreSQL, DymanoDB, Prisma
<u>TESTING</u>: Jest, Mocha, Playwright, E2E, Unit Testing, Integration Testing
<u>OTHER</u>: AWS S3, CloudFront, CloudWatch, Firebase, CI/CD, GitHub, GitLab, Webpack, Babel, NPM, GitHub Actions, Docker, Web APIs, RESTful API, MERN Stack, Jira, VMWare, Automation

Project Management: Agile/Kanban, Scrum, Project planning and execution, Risk Management, Decision-making, Cost Management, Project estimation, Requirement analysis, Escalation handling, Incident/Problem Management.

Soft Skills: Team Leadership, Team collaboration, Stakeholder Management, Analytical skills, Multitasking, Adaptability, Customer Relationship, Time Management, Conflict Resolution, Presentation skills.

EXPERIENCE

Front-End Developer   2024 – Present
SevenDot Analytics Inc. - London, ON
- **Core Development:** Led the development of the company's legacy codebase employing React, React Native, Expo, Xcode, GitHub
- **Architecture Planning**: Developed a list of optimized solutions to speed up data loading and application responsiveness collaboratively with the CTO and key stakeholders to create a technical roadmap.
- **Cross-functionality:** Collaborated with 4 cross-functional teams (front-end, back-end, marketing, and project managers) to ensure compatibility across devices and browsers.
- **Performance**: Optimized app stability and accelerated time to market by 40% through CI/CD best practices, leveraging GitHab actions, and cloud-based solutions.
- **User Experience**: Improved app performance by 25% and visual appeal by developing custom UI components using JavaScript, and TypeScript. Integrated advanced features with Redux, Apollo GraphQL, and Firebase, ensuring a responsive and engaging experience for users.

Full Stack Developer   2017 – 2021
Transneft - Kazan, Russia
- **Core Development:** Modernized a pipeline leak detection system, reducing company losses by 35% and enhancing application functionality.

- **Project Design & Infrastructure:** Developed a hybrid-mode mail system architecture, ensuring high availability, resilience, and security compliance, increasing by 30% response to emergency
- **Leadership**: Managed a team of 5 engineers, overseeing hiring, budgeting, task allocation, and development plans, which reduced manual work by 45% and saved 60 man-hours monthly by automating processes.
- Enhanced system functionality using Python, React.js, Node.js, Express.js, and MongoDB, resulting in a **20% improvement in system performance.**

PROJECTS

Odds Pulse: https://apps.apple.com/us/app/odds-pulse/id6736870855?platform=iphone
- Implemented secure social login using Google, Facebook, and Apple authentication with Expo, streamlining user onboarding and ensuring data security.
- Designed custom UI components in React Native, enhancing visual appeal and app responsiveness for an improved user experience.
- Developed lazy-loading and adaptive rendering features for better data efficiency, achieving seamless user interaction and reduced load times.
- Designed a RESTful backend server enabling real-time data to be stored persistently in an online database.

Dream Collection Github: https://github.com/DamirFM/Dream-Collection
- Developed a dynamic, responsive web application using Next.js and React.
- Integrated RESTful APIs for secure data exchange, utilizing AWS S3 for media uploads and MongoDB for database management.
- Ensured cross-browser compatibility with advanced Tailwind CSS and TypeScript solutions.
- Implemented custom and Google authentication using React Hook Form for accurate user input validation.

SevenDot (NDA)
- Developed data visualizations using React Native Chart Kit for tracking player stats and game analytics.
- Enabled real-time data fetching with GraphQL and REST APIs.
- Improved UX through A/B testing and refining UI components.
- Implemented user-friendly forms with real-time validation using React Hook Form

FruitWave Github: https://github.com/DamirFM/FruitWave
- Developed a responsive e-commerce platform, FruitWave, using Angular.
- Implemented Angular Material components and Tailwind CSS for a modern UI.
- Utilized Stripe API for secure payment processing.
- Managed state with Angular services and RxJS for enhanced user experience.

EDUCATION

Certificate in Programming with JavaScript, Meta, Coursera	03/2024 – 04/2024
Certificate in Full Stack Web Development (Grade 100%), The UofT	11/2023 – 02/2024
Certificate Frontend developer, Hexlet	11/2021 – 09/2022
Master's Degree in Automation of Technological Processes, USPTU	09/2015 – 09/2017
